BILLING CODE 6718-03-P

44 CFR Part 67

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Final rule.

SUMMARY: Base (100-year) flood elevations and modified base (100-year) flood elevations are made final for the communities listed below. The base (100-year) flood elevations and modified base flood elevations are the basis for the floodplain management measures

that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

EFFECTIVE DATE: The date of issuance of the Flood Insurance Rate Map (FIRM) showing base flood elevations and modified base flood elevations for each community. This date may be obtained by contacting the office where the maps are available for inspection as indicated on the table below.

ADDRESSES: The final base flood elevations for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Michael K. Buckley, P.E., Chief, Hazard Identification Branch, Mitigation

Directorate, 500 C Street SW., Washington, DC 20472, (202) 646-2756.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA or Agency) makes final determinations listed below of base flood elevations and modified base flood elevations for each community listed. The proposed base flood elevations and proposed modified base flood elevations were published in newspapers of local circulation and an opportunity for the community or individuals to appeal the proposed determinations to or through the community was provided for a period of ninety (90) days. The proposed base flood elevations and proposed modified base flood elevations were also published in the **Federal Register**.

This final rule is issued in accordance with section 110 of the Flood Disaster

CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

45 CFR Part 2543

Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals and Other Non-Profit Organizations

AGENCY: Corporation for National and Community Service.

ACTION: Final rule.

SUMMARY: This final rule amends the Corporation for National and Community Services regulations to incorporate the changes established by revised OMB Circular 1-110, "Uniform Administrative Requirements for Grants and Agreements with Institutions of Higher Education, Hospitals and Other Non-Profit Organizations," published by the Office of Management and Budget (OMB) on November 29, 1993. Consistent with the Circular, this rule applies to Corporation for National and Community Service awards to institutions of higher education, hospitals, and other non-profit organizations.

EFFECTIVE DATE: March 10, 1995.

ADDRESSES: The Corporation for National and Community Service, 1201 New York Ave. NW., Washington, DC. 20525.

FOR FURTHER INFORMATION CONTACT: Rina Tucker, (202) 606-5000 x257 between the hours of 9 a.m. and 5 p.m. This document will be made available in an alternative format upon request.

SUPPLEMENTARY INFORMATION:

I. Background and Purpose

In November of 1990, OMB established an interagency task force to review the Circular with a view toward

its revision based on recommendations solicited from affected organizations such as universities and other non-profit groups. The task force developed a proposed revision of the Circular, which OMB published on August 27, 1992 (57 FR 39018). After considering the over 200 comments from a wide variety of federal and non-federal respondents, OMB published the final revised Circular in the **Federal Register** on November 29, 1993 (58 FR 62992).

OMB Circular A-110 sets forth government-wide standards governing Federal agency administration of grants and other agreements with institutions of higher education, hospitals, and other non-profit organizations. Federal agencies must apply the provisions of the Circular in making awards to the covered entities; all primary recipients (including governments) of Federal awards must also apply the Circular's provisions to any subawards they make to such entities. Those provisions that affect Federal agencies were effective on December 29, 1993 (58 FR 62992-93). With respect to the Circular's application to recipients of Federal agency awards, OMB's notice directed each affect agency to promulgate its own rules adopting the provisions of the Circular (58 FR 62992-93).

Accordingly, the Corporation is publishing this final rule whose primary purpose is to incorporate the provisions of OMB Circular A-110 into the Corporation's grants administration regulations at 45 CFR part 25. Consistent with the Circular, this rule applies to Corporation awards made to institutions of higher education, hospitals and other non-profit organizations.

II. Regulatory Impact Analysis

In keeping with the requirements of 44 U.S.C. 3504(h), the information collection requirements contained in this rule have been approved by OMB as Standard Forms. This rule will not have a substantial impact on a significant number of small entities, thus a regulatory flexibility analysis has not been prepared pursuant to the Regulatory Flexibility Act, 5 U.S.C. 601 et seq. The agency has determined that this rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment pursuant to Executive Order 12612. In addition, the Agency has determined that implementation of this action will not have any significant impact on the quality of the human environment pursuant to the National Environmental Policy Act.
